

I am patitioning on behalf of the nation wide KLOV network. KLOV brings a positive message of love and understanding to the community. It is a place that both young and old can go to get clean family entertainment as well as a positive message. It is important the young in our community have a radio station that relates to their desires. KLOV does this in a positive way. With other stations that preach death, civil disobediance, sex and the total disolution of the family, KLOV stands and the loan successful station to portray positive values. Thank you
